

## Discussion Activity – The National PDF, its underpinning Values & You!

We will now look at the values underpinning the national PD Framework, and in your small groups, you will be asked to consider how you can relate them to your own practice.

What does inclusivity mean in the context of your role/? Can you share an example with your group of how you are inclusive in your professional practice?

What does authenticity mean in the context of your role/practice? Can you share an example?

Is scholarship important in your role? What does it mean in your context? What recent examples can you share?

Learner-centredness – how does this feature in your practice? Any examples?

Collaboration – can you define this for your own context and share recent examples from your practice?

**Finally, to show how you ‘live each value’ in your professional practice, share 1 resource that helps you achieve it [can be a book/article, a web site/app, podcast, video etc]**
